The exec. has been in power for just over a month. What has it done to benefit the students as a whole? Obviously, in one month the exec. has just had time to hold its first meeting and to present its vision of the exec. at the moment would be fair appraisal of its potentialities. So we will confine ourselves to minor remarks on what the exec. has done so far, what it should do and cannot, and what it should do and has not yet done.

Recommendations from the A.G.M., review of the minutes of the executive and the minutes of the general meetings of the various motions followed.

Salient Finances
First, there was an issue with the finances of Salient. Readers will have read the article "Hobbit Cupids" in the last issue of this paper and will know that the executive has been hard at work on the finances of the paper.

Association Finances
The finances of the Association are not too bad, although at the moment of (1746) allocated to club and association expenses and the rent, the student clubs are in a healthy financial state with no debts. The Association, however, is in a slightly more precarious position.

Spike
The problem of Spike, too, has been mentioned in the minutes for the time being. To quote the minutes, "Spike is not yet fully acceptable. An effort should be made to get one as soon as possible." The Spike is in need of improvement in terms of size, format, and design. The board has immediately come out in favor of having a Spike to read the rest of the year. The last issue of Spike was on July 14. To avoid...

Debating Censure
In response to a Special General Meeting of the Debating Society calling for the suspension of the motion "Anchors Aweigh," the executive held a meeting of "Anchors Aweigh," the executive held a meeting of "Anchors Aweigh," the executive held a meeting of "Anchors Aweigh," the executive held a meeting of "Anchors Aweigh." The meeting, however, turned out to be a discussion on the topic of "Anchors Aweigh," the executive held a meeting of "Anchors Aweigh."

Student Pranks
The problem of student pranks has been raised. It is important that students understand the difference between harmless pranks and vandalism. We must remember that pranks can be harmful to others and can create a culture of fear and suspicion.

Student Morality
It is crucial that the university community understand the importance of maintaining a certain level of morality. This includes respecting the rights and privacy of others, avoiding alcohol and drug abuse, and promoting healthy habits.

What is it?
A definition of birth control was offered. It is said that birth control is the practice of controlling the number of children born in a family. Birth control can be achieved through various methods, such as condoms, birth control pills, and sterilization.

The Church's Teaching
The role of the Catholic Church in the teaching of birth control is controversial. Some believe that Catholic teaching on the matter is outdated and should be reconsidered in light of modern medical knowledge.

Reasons for the Church's Teaching
The Catholic Church's teaching on birth control is based on the belief that human life is a gift from God. This belief is reflected in the Church's teachings on the value of human life and the importance of respecting the rights of all individuals.

Error

Q: The Mathematical and Physical Society of this College has asked me to communicate with you concerning a matter of some importance which they felt the Society over the matter of the recent issue of article 7. I fear not that this only a printer's error but we would welcome an assurance from you that we will hear from you in this matter.

A. B. Williams  
Secretary, Mathematical and Physical Society.

Q: [The above] error has been received in "Silent"—ed.

And Mr. Middleton

Q: For competing with the one time you were in the University, the debate was held on the 20th of April, one of the speakers for the "Silent" society.

Q: Thank you for your help, there is another matter that I would like to take up. It seems that someone has designed a new type of debating stage, which was designed to enhance the visibility of the speakers. I would like to hear your thoughts on this.

Mr. Williams

Q: I don't recall your newspaper. I don't know if I want to comment on it or not. I don't see that someone has designed a new type of debating stage, which was designed to enhance the visibility of the speakers. I would like to hear your thoughts on this.

And Mr. Middleton

Q: [The above] error has been received in "Silent"—ed.

Q: Thank you for your help. I would like to continue the discussion.

Mr. Williams

Q: [The above] error has been received in "Silent"—ed.

Q: Thank you for your help. I would like to continue the discussion.

Mr. Middleton

Q: [The above] error has been received in "Silent"—ed.

Q: Thank you for your help. I would like to continue the discussion.

Mr. Williams

Q: Thank you for your help. I would like to continue the discussion.

Mr. Middleton

Q: [The above] error has been received in "Silent"—ed.

Q: Thank you for your help. I would like to continue the discussion.
A CONVENIENT STORY
OR THIS MODERN AGE

This following article is reprinted, with permission, from the "Upper Hour Times." It seems that even in this modern age the necessity of mankind is to fore in public discussions.

If in 1953 it is to be looked back upon as having any special significance, it is just possible that the climate is right for the year which public convenience it is in between the two wars. It is therefore with some prudence that the subject was more than passing mention from the Borough fathers of Upper Hour, as they met together last Wednesday.

It was only a pity that the boys of Upper Hour could not have had some information of the Upper Hour discussion, and sent out a delegate, if only as a courtesy gesture to add authority to the debate.

The subject was brought up without special emphasis by the Borough Engineer, who pointed out that a public convenience, along with other articles, figured in the Upper Hour town plan. There was provision in the plan for a convenience in Station Street, where it was also proposed to reconstruct one behind the Council building in that street.

The Engineer, who wanted to know it Station Street running was still required on the plan, must not have anticipated the glib manner in which councillors tackled the subject.

Perhaps wary of having an editor on the council, the Mayor quickly explained that the building proposed for Station Street would be the one that would be used. He was "by no means certain" he said, a hint of doubt little discussion along the decision

The meeting of students to consider the implications and possible consequences of this decision is expected to be heard in Court Yard this week.

It began when we were talking about chaperoning with an American girl one day. She was, as we have said, a girl who wasn't doing anything about it. She offered a little explanation. "It doesn't seem worth while, being a liberal, to join with your..."

We'll come back to the subject another day. Perhaps we'll join the Episcopalian Church, or the liberals better. -Sterlitz, and, it is not going to be easy, but we're going to try. Mutual consent is the matter in all things, as we have said. If so, the matter is not going to be easy. It is not going to be easy, but it gives the appeal of a mutual consent, or at least the appearance of one. -Sterlitz

THE MEDICAL VIEWPOINT

There was a great deal of talk on the subject. The medical profession, it was said, is one of the most important in the world, and those who have charge of the sick, and who have the privilege of being able to help them, are in a position of great responsibility.

The medical profession is one of the most important in the world, and those who have charge of the sick, and who have the privilege of being able to help them, are in a position of great responsibility. VARSITY FINDS FORM

Teamwork and Jarden

FOR a number of reasons University's 36-8 win against Hutt last Saturday is difficult to describe, for victory was achieved by a combination of individual brilliance and great teamwork. The latter was especially felt on the matting, where the players seemed to have taken full advantage of their money as Varsity fought back after being badly battered in the opening quarters and slowly gained the upper hand of the game. The individual brilliance was supplied by All Black Ran Jarden who scored 32 of the points. Of this he was "extraordinary" but to score most of these points in the first period, when he was at his best, was a great tribute to the team. One other point was scored by Paul Oliver of the University, an ability and about 15 others.

TABLE TENNIS

Last week in their second match of the second round of the inter-collecti competition Varsity played against Wellington and scored their first win of the season. This places Varsity bottom equal with Technical in the competition as they scored when they beat Varsity in their opening match.

The story of the match was Tony Wagner. A young New Zealander who has been away in Australia for some time, Tony has returned to Christchurch and has started playing again. He has been playing in the Christchurch League and has been playing well. This week he had a good game against Wellington and scored 14 of their 15 points.

JOINT S.C.M. - C.S.G. MEETING

The meeting of the Joint Student Christian Movement and the Canterbury University Students' Union was held on Sunday, July 24. Following the discussion of the aims and objectives of the two organizations, a joint committee was elected.

The discussion included topics such as the role of the Christian movement in university life, the relationship between religious and non-religious students, and the importance of unity among students.

The committee was composed of representatives from both organizations, including the presidents of the S.C.M. and the C.S.G., and several other members who were elected to represent the interests of both groups.

For more information, please contact the Joint S.C.M. and C.S.G. committees.

DINNER AND DRESS SUITS FOR HIRE

Double and single-brasted Suits

Double and single-brasted suits are available in a variety of styles and sizes. Whether you're looking for a formal occasion or a casual event, we have suits to suit your needs. Contact us for more information.

PETER JACKSON (Opposite G.P.O.)

We are pleased to announce that PETER JACKSON (Opposite G.P.O.) has been selected as the new manager of the N.Z.A.A. Tramping and Camping Requisites and Motor Accessories.

For all your tramping and camping needs, visit us at 36 WEXER STREET, WELSTON. Phone 42414.
